The MHBA is the only national non-profit trade association exclusively serving the modular home industry. Each month the association selects a home from its members to highlight the advantages of modular construction. In an effort to improve construction productivity and efficiency, the MHBA promotes the advantages of modular construction to builders, government agencies, home buyers and the general public. MHBA also advocates at the state and federal level to ensure a fair and competitive playing field for the industry.

THE JUNE 2019 MODULAR HOME OF THE MONTH WINNER IS A CUSTOM CAPE CODE

Millbrook Modular Homes worked Apex Homes to create this two-story custom Cape Code with 3 bedrooms and 3 bathrooms with a 2-car garage.

This gorgeous 3200 square foot home with stunning ocean views was designed by the owner in collaboration with Millbrook Modular Homes.
